

Preventive Medical Visit Patient Information

Dear Patient,

You are seeing your provider for a preventive medical visit. This is a comprehensive, preventive medicine evaluation and management of an individual, including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of laboratory/diagnostic procedures. Insurance carriers may or may not provide coverage for screening laboratory and diagnostic studies; rules are carrier specific. Preventive medical visits are exempt from copayments.

However, if an abnormality is encountered or a pre-existing problem is addressed in the process of performing this preventive medicine evaluation and management service, and if the problem or abnormality is significant enough to require additional work to perform key components of a problem-oriented evaluation and management service, then a separate office visit code may be charged. The use of this additional code will require, a co-payment, coinsurance or deductible if one is charged by your insurance plan.

If you have any questions, we advise you to contact your insurance carrier directly to discuss your coverage for these services.

Sincerely,

Privia Medical Group

I certify that I have read and understand the differences between preventive and problem-oriented visits, and agree to pay the associated copay should the nature of my visit change.
